6. What are the agents' plans for circumventing a new registration and rationing plan of the Castro regime? How would they obtain food?

7. What is the probable group resupply problem? Is it a question of supplying the agents or providing supplies, arms, equipment, etc., for guerrilla bands recruited by the agents? What is the probable timing of the supply or operation? When will it start? How extensive will it become under the existing plan?

8. How will they monitor success or failure of the agent teams - how do we know if and when they are "rolled up"?

9. What will be the extent of attribution by captured agents - will U.S. government be clearly identified - will CIA be clearly identified or identified by suspicion?

10. What are CIA's plans for keeping the training and dispatch of the agents away from the Florida press corps - will trainees be free at any time during training and prior to placement - will "safe-house" trainees be permitted freedom - what will be done with rejected trainees or surplus trainees - in other words, how are we going to avoid leaks and gossip?
